Reactjs

PERSONAL PROJECTS

RealEstate

MERN Stack Project

December 2023–Present

- A comprehensive web application developed using the **MERN stack**.
- Users can **browse, search, and filter** available properties for buying or renting based on various criteria such as location, price, amenities, etc.
- Utilized **MongoDB** as the database, **Express.js** for the backend, **React.js** for the frontend, and **Node.js** for server-side scripting.
- Implemented **OAuth authentication** to enable secure and seamless user registration and **login via Google accounts**.
- **Deployed the web application**, ensuring widespread accessibility for users - [Link](#)

NewsLetter App

React.js Project

October 2022–Dec 2022

- Utilized **React.js** to create a **single-page application** (SPA) for smoother and **faster navigation**.
- Demonstrated proficiency in data integration by seamlessly incorporating **external APIs** for **real-time news updates**.
- **Integrated Bootstrap** to ensure cross-browser compatibility and a **mobile-responsive design**, enhancing the website's accessibility.
- **Contributed** to the project's codebase available on GitHub – [Link](#)

ACHIEVEMENTS

- Won blind coding competition at Technoutsav.
- Secured 1st position in software competition in government college of engineering, Chandrapur.
- Hosted the annual event Abhirang2k24.
